# THE PIOCHE DAILY RECORD

Tas mortuary statistics of Stockton, for the last year, show that there were eleven deaths for each thousand of the population. This is said to be the standard of inevitable decay in the most healthy countries. During the year end-ing June 30th, 1872, the rate of mortality in Oakland was one to every 102 persons, which beats Stockton. During the last year, there were 149 deaths registered here. The population of the part of the city embraced within the record, cannot be less than 13,000. Most estimate it as more than this, so that we think that Oakland can justly lay claim to the distinction of being the most healthy city in California.—Oakland healthy city in California.-[Oakland

THE Police Judge of Chicago recently decided that newspaper reporters are valuable public servants, and though their pursuit of information should lead them them into "bye and forbidden paths," they are entitled by common consent to certain immunities and privileges. The decision was rendered in a case where a number of persons, including three reporters, were arrested in a gambling house.

Professor Hilgard has found that a eastern corner of Ohio, to Pensacola, in Florida, would divide the population of United States, as it stood in 1870, into two equal parts. This line is nearly par-allel to the line of the Atlantic coast.
